

December 7 – 11, 2009
Ft. Lauderdale, FL
RELAPSE PREVENTION THERAPY
ADVANCED CERTIFICATION SCHOOL
OFFERING 44 CEU'S

Relapse Prevention Therapy/Advanced Certification instructed by Terry Gorski - Learn how to help clients identify and manage the core personality and life-style problems that can cause relapse in recovery. Psychotherapy is the process of teaching clients how to identify and manage the core personality and lifestyle problems. Each person completing RPT learns how to identify key or critical warning signs and how to use specific skills or tools to manage those warning signs in a way that stops the progressive pattern of self-defeating thinking and behavior.

This five-day intensive small group training (limited to 12 participants) uses a combination of lecture, demonstration and experiential exercises to teach participants how to identify and challenge the core personality and lifestyle problems that can lead to relapse after the initial high risk situations have been stabilized. An optional competency certification is available to individual participants after the successful completion of this training.

Why You Should Attend...

- Learn to identify and manage reciprocal relapse issues
- Personal and professional growth experience
- Increased success with relapse-prone clients
- Learn a cost-effective managed care approved modality
- Help clients manage core warning signs

Training Location: The Courtyard By Marriott Hotel
